

Rule review INC1719

Author: Priya Sandoval. A velocity rule was deployed at 16:12 UTC on 23 April 2024.

Document DOC7270 | Fraud rule review for INC1719 | version 1 (current) | Page 1 of 4

Impact of the rule

Nine high-value card payments were blocked by the rule and later reprocessed manually. Those blocks carry the `fraud_rule_block` failure code.

Decision log extract

Authorisation TX83155 was evaluated at 02:03 UTC and the decision was ALLOW, score 0.11, no rule matched.

The rule therefore does not explain Txn 83155; the failure code on that row is upstream_auth_timeout.

Remediation

The rule was narrowed to card-present traffic and redeployed.
